

early steps

Early Steps provides services to infants and toddlers, age birth–36 months, with disabilities, developmental delays, and at-risk conditions. We help families build on their child’s individual strengths and provide supports to meet the child’s unique needs. Services will support children in their communities where they **live, learn and play.**

WHY ARE OUR SERVICES IMPORTANT?

Research shows that children’s earliest experiences play a critical role in brain development.

EARLY STEPS COSTS

There is no income requirement to qualify for the program. Early Steps pays for services not covered by public or private insurance. Private insurance is only billed with parent authorization.

CORE VALUES

Each child is unique.

Every family’s needs are different.

Early intervention works best when the family is supported in meeting their child’s needs.

The parent, family or caregiver is the child’s best teacher.

The family’s concerns, priorities, and culture are valued.

Children learn best in settings that include all children.

Services are based on a child's strengths and needs and may include:

Assistive Technology Devices

Audiology Services

Behavioral Services

Family Training & Home Visits

Health Services and/or Medical Services

Occupational, Physical & Speech Therapy

Service Coordination

Vision Services

Developmental Monitoring

Other Individualized Services

Families know their child best and are valued members in decision-making about their child's needs.

Anyone can refer a child to Early Steps.
